Yalan Qin
Education: Doctoral
Title: Associate Professor
Research Direction：Data Mining and Machine Learning
Email:ylqin@shu.edu.cn

Brief Personal Information:

Yalan Qin is the associate professor in Shanghai University. In the field of data science, she hosted or participated in National Natural Science Foundation of China youth projects, Original Exploration projects, China Postdoctoral Fund general projects, National Key R&D projects of the Ministry of Science and Technology, and enterprise horizontal projects. She was also selected for the Shanghai "Super Postdoctoral" Incentive Funding Program during the postdoctoral period and nominated for the Outstanding Doctoral Dissertation of the China Electronic Education Society in 2024, the Outstanding Doctoral Dissertation of the Shanghai Computer Society, and the Outstanding Doctoral Dissertation of Shanghai University. So far, she has published more than 20 papers in the field of data Science, including 19 CCF-A papers as first author and 12 IEEE/ACM Trans (CCF A/B) papers as first author, including TPAMI, ICDM, ICLR, ICML, CVPR(Highlight), AAAI(Oral), TIP, TKDE. The proposed SSSL-M in the field of data Science was awarded the "2022 IEEE TIP TOP-25 Download Paper" by the top IEEE TIP. She is currently serving as the Area Chair (AC) or reviewer for relevant journals or conferences including TPAMI/TIP/TKDE/TMM/ICML/NeurIPS/ICLR/CVPR/SIGKDD/Computer Science Journal.

Main Papers：
